June 2024

BIASP Exec Message

Prof David Werring
BIASP President

It has been a busy start to the summer for your BIASP Executive team!

First, we are busy planning for the [UK Stroke Forum 2024](#) in Liverpool. The Scientific Committee, until recently led by Abhijit Das and, now, by Alastair Webb, have helped us to create some excellent sessions which will showcase essential cutting-edge and practice-changing research for all UK stroke physicians. And we are delighted to bring back the BIASP training afternoon on the first day, which will provide high quality practical talks and CPD for all our members, including trainees and consultants.

Second, the workforce challenge is central to BIASP's mission, and one key aspect is encouraging young medics, including medical students and trainees, into a career in stroke. I am proud to announce that BIASP has now become an affiliate partner of Neurology and Neurosurgery Interest Group (NANSIG), an organisation which aims to promote research and education in neurology and neurosurgery among students and doctors, with a recently signed memorandum of understanding to form a mutually beneficial partnership. Our first projects together, led by Saugata Das, Chair of the BIASP Training and Education Committee, will include a virtual 'stroke careers' day later this year, and BIASP summer bursaries for medical students planned to launch in 2025.

Please **save the dates** for the BIASP Trainees Meeting 6-7th March 2025, being held at [Dublin Castle](#), which promises to be a real highlight of our educational calendar!

Third, BIASP recognises the importance of the current climate crisis and is taking action. Under the leadership of Bethan Davies, our Executive member for sustainability, we have obtained our first organisational carbon footprint. We will be carefully considering the findings and implications and will share this when it is finalised.

With the forthcoming General Election, BIASP has signed a UK Health Alliance on Climate Change [letter to candidates across all political parties](#) expressing our deep concern about the impact the climate and ecological emergency is having, and will continue to have, on health and the health service.

Meanwhile, we can all think about how we travel, what we eat, how we heat our homes and what we consume to reduce our personal carbon footprints as well as applying the [principles of sustainable healthcare](#) in our clinical practice.

Finally, I am currently bringing together feedback from our members and the BIASP Executive to help me draft the next BIASP Strategy for 2025-2028, which will then have input from the Executive and go out to consultation for our members and stakeholders. We will launch the new strategy at our Annual General Meeting at the UK Stroke Forum

BIASP England Update

The nation report this month is for England by Dr Blake.

The report includes:

- Stroke medical workforce survey
- Mechanical Thrombectomy Centres visit
- Thrombolysis in Acute Stroke Collaborative (TASc)

BIASP-NIHR:RDN Writing Group Award

**Joint British and Irish Association of
Stroke Physicians and
NIHR Research Delivery Network Stroke
Portfolio Development Opportunity**

**2024 Competition
Opens 31 May
Closes 31 October**

**BIASP/NIHR:RDN
Writing Group Awards
Launching 31st May**

The British and Irish Association of Stroke Physicians (BIASP) and the NIHR Stroke National Specialty Group invites applications from the stroke clinical research community with the explicit aim of developing high quality research proposals which will be included on the NIHR Research Delivery Network portfolio if funded.

Relevant documents and guidance are located [HERE](#)

BIASP Careers Page - FAQ's

Considering a career in stroke?

BIASP have produced a response to FAQs to guide you in your career choice.

[CLICK HERE](#) for information on:

Why should I consider career in stroke?

How do I become a stroke physician?

Who can apply for stroke sub-specialty training?

What does a typical training pathway look like for a stroke physician?

Careers for stroke physicians

Specialty and specialist doctors (SAS) career information

New Training Route for Stroke Consultants

There is now a new GIM-Stroke training pathway programme available which will take 3 years to CCT.

The stroke curriculum allows for training in GIM coupled to stroke. GIM acts as a specialty and successful applicants would CCT in GIM. Stroke is the sub-specialty. The training programme will last for three years with two years of GIM and one year of stroke. Unlike the usual stroke recruitment, applicants will not already have an NTN. They will be able to apply while completing IMT3. All applicants will have to have completed IM stage 1 or equivalent before they start. All applicants will have to have MRCP or equivalent by interview. On successful completion of training, trainees would have a CCT in GIM and a sub-specialty CCT in Stroke Medicine.

Further information on the GIM-Stroke 3-year CCT will be available in due course which BIASP will sign post to.

In the meantime the following may be useful:

[CLICK HERE](#) for the physician higher specialty training recruitment website, this has a stroke section

Provisional national recruitment process:

- Advert: July 2024
- Interviews: October 2024
- Start: February 2025

Please let us know if you are interested by emailing: admin@biasp.org

UK & ROI Acute Stroke Simulation Course

The UK and ROI Acute Stroke Simulation Course formally launched on 1/2/24 at St. George's Hospital, London. A range of candidates attended from across the UK and Ireland. The feedback has been overwhelmingly positive with candidates commenting that it should be a mandatory part of stroke training.

The course is multidisciplinary and open to anyone involved in acute stroke care.

[CLICK HERE](#) for more information and to book a place

We are looking for other sites to host the course in the future. We have developed a package that would include all the relevant materials including access to the scenarios

and stroke simulation intranet. We are keen to identify individuals interested in coordinating the development and delivery of the course in their region. We are looking for regional leads in:

- East of England, Ireland, London, Midlands, North East, Northern Ireland
- North West, Scotland, South East, South West, Wales

If you are interested in being involved, please email ukstrokesimulation@gmail.com

UK Health Alliance on Climate Change

UKHACC have coordinated the publication of an editorial in 200+ journals. This year the [editorial](#) calls for the climate and nature crisis to be recognised as one indivisible global health emergency.

A petition calling on WHO to declare a global public health emergency is being launched to coincide with the editorial.

It is the third in a series of annual multi-journal editorials published ahead of the UN Climate Conferences in 2026, 2027 and 2028 coordinated by the UK Health Alliance on Climate Change.

An open petition has been launched to support the call to WHO. More information, including how to sign the petition, is available. [CLICK HERE](#)

UKHACC - Manifesto for UK General Election

The UKHACC manifesto for the next general election presents five priorities for the new government to sustain our health, health and care services, and environment.

[CLICK HERE](#) to read more

The graphic features the UKHACC logo at the top left. To the right is a speech bubble containing a globe. The main heading is 'Our priorities for the next UK general election', followed by the subtext 'To sustain our health, health and care services, and environment'. Below this are five numbered priorities: 1. End fossil fuel dependency, 2. Ensure a healthy environment, 3. Transform the food system, 4. Meet international commitments, and 5. Transform health and care services. A URL 'https://ukhealthalliance.org/' is at the bottom.

Community Rehabilitation Alliance - Joint Letter to Party Leaders

BIASP is a member of the Community Rehabilitation Alliance (CRA). The alliance comprises more than 60 charities and professional bodies who are all committed to improving commissioning, planning and delivery of rehabilitation. It is in this shared endeavour that we have signed this letter to each of the three political party leaders clearly setting out why it is vital that the next government must prioritise and invest in community rehabilitation services.

[CLICK HERE](#) to read one of the identical letters also sent to the secretary of state and the shadow health leads.

The alliance's priorities are:

- to gain political commitment to delivering universal access to rehabilitation to meet needs
- to improve the quality of rehabilitation through new models, better data collection, planning, commissioning and delivery of services.

NEW 2023 National Clinical Guideline for Stroke

Updated National Clinical Guideline for Stroke now available

The 2023 edition of the National Clinical Guideline for Stroke for the UK and Ireland is now available. Over half the recommendations are new or have been updated. Big changes in the evidence base since the previous edition in 2016 have led to significant updates in three main areas:

- A big expansion of patients eligible for thrombolysis and thrombectomy
- More intensive interventions in secondary prevention – antiplatelets, cholesterol, blood pressure

- More intensive rehab in hospital and at home to promote motor and language recovery.

This is a 'five nations' guideline for the first time ever, covering all of the UK and the Republic of Ireland. The guideline is endorsed for use in clinical practice by the Royal College of Physicians (London), the Scottish Intercollegiate Guidelines Network (SIGN) and the Royal College of Physicians of Ireland.

[CLICK HERE](#) for the Online-only publication

[CLICK HERE](#) for the plain language summary for people affected by stroke.

Specialty Stroke Medicine in the electronic Referral Service (e-RS)

The electronic Referral Service (e-RS) in England have had a number of users asking for Stroke Medicine Specialty with Stroke (not TIA) clinic type to be created in the e-RS system as this currently sits under the following two specialties:

- Geriatric Medicine / Stroke (not TIA)
- Neurology / Stroke (not TIA)

This has been voted on, as a change that would help GPs find the service, help consultants find their own specialty and referral workflows.

[CLICK HERE](#) for more information.

ESO - Emerging Leaders

Join the Next Generation of Stroke Leaders!

ESO is on the lookout for exceptional individuals who embody **outstanding leadership qualities** and have a deep understanding of global stroke issues. Our aim is to

cultivate a **new generation of influential stroke leaders** who will drive transformative efforts in stroke prevention, treatment, and support worldwide.

ESO handpicks outstanding individuals to become Emerging Leaders in stroke care

ESO also provides financial funding

Survey

Physician Questionnaire on Stroke Care for People Living with Dementia and/or Disability

The team at the University of Calgary, led by Dr. Aravind Ganesh, is conducting an online survey on approaches to stroke care for people living with dementia or disability. They would like to invite fellows and physicians in independent practice, involved in any aspects of acute stroke management and post-stroke rehabilitation, to take part.

The collected data will potentially be used to inform the design of a clinical trial to optimize acute stroke management for people living with dementia or disability.

On completing the survey, respondents will be offered an Amazon electronic gift card valued at 50 CAD. Alternatively, there will be an option to donate 50 CAD to the World Stroke Organization.

The survey will take around 15 minutes to complete, closes **30 June 2024**

[CLICK HERE](#) to participate in the survey

ESO Endovascular Task Force Survey, evaluating first emergency medical service (EMS) for acute stroke and call-to-endovascular reperfusion time.

[CLICK HERE](#)

Closes 31 July

Shape the Future of Stroke Care Communication Training with the COM-STAR Project

Calling all BIASP members! Join the NIHR COM-STAR project in designing training for staff working with NHS stroke patients with communication difficulties. Share your thoughts to help us understand what is currently available and what is needed.

By taking part , you will directly contribute to shaping training programs that enhance communication with stroke patients, ultimately improving their care and rehabilitation experiences and outcomes.

[CLICK HERE](#) to participate

Closes 30 September

The survey has received ethical approval from the University of Sheffield

DSM5 4- and 7- level cognition scales

* There is no need to answer if you responded to this first time round. *

As part of the validation of the DSM5 4- and 7- level cognition scales, we would be grateful if you would complete the following on-line validation form (using Google-docs) which primarily focusses on usability and determining the minimum clinically important difference (MCID). The link is below.

[CLICK HERE](#)

Completing the form should take no more than 10 minutes. You may well receive this form from more than one source so apologies for cross-posting - no need to complete the form more than once!

* Once again, please do not respond if you completed the survey first time round. *

Survey on the Global Status and Perceptions of Stroke Rehabilitation & Telerehabilitation

The survey was developed and validated by a team of stroke experts from the World Stroke Organization (WSO) Future Leaders Program to understand the role of

telerehabilitation and identify areas of opportunities and improvements. Understanding the current landscape of stroke telerehabilitation will help address resource gaps and influence policy-making to enhance stroke care.

The survey comprises 6 brief questions on conventional rehabilitation and up to 27 brief questions on telerehabilitation. Your participation is crucial, and all responses will be anonymous. Expect the survey to take approximately 15-20 minutes to complete.

[CLICK HERE](#) for the survey

Funding

The Stroke Association - Research Funding Schemes Open

At the start of November, the Stroke Association will be opening applications for three of our 2023-24 research awards.

All three awards have Clinical-Academic pathways where candidates can combine research with clinical practice.

Virtual Learning Hub

BIASP are hosting monthly 1-hour webinar sessions with the opportunity to ask the presenters questions at the end of each session. The live webinars will also be uploaded to the Virtual Learning Hub in the BIASP Members-only section for you to watch any time afterwards.

Each webinar is **free** to attend, you must register in advance for each live session. A certificate will be issued for those who attend more than 75% of the session, and complete a short evaluation that appears on the screen directly after the session.

Click [HERE](#) to view past webinars on the BIASP Virtual Learning Hub.

BIASP Webinar 31

Topic: Post thrombectomy complications - insights and valuable lessons from a U.K. CSU

Date: Wednesday 26 June 2024

Speaker: Dr Faisal Chaudhry

[CLICK HERE](#) to register

Dates for your diary, further details will follow:

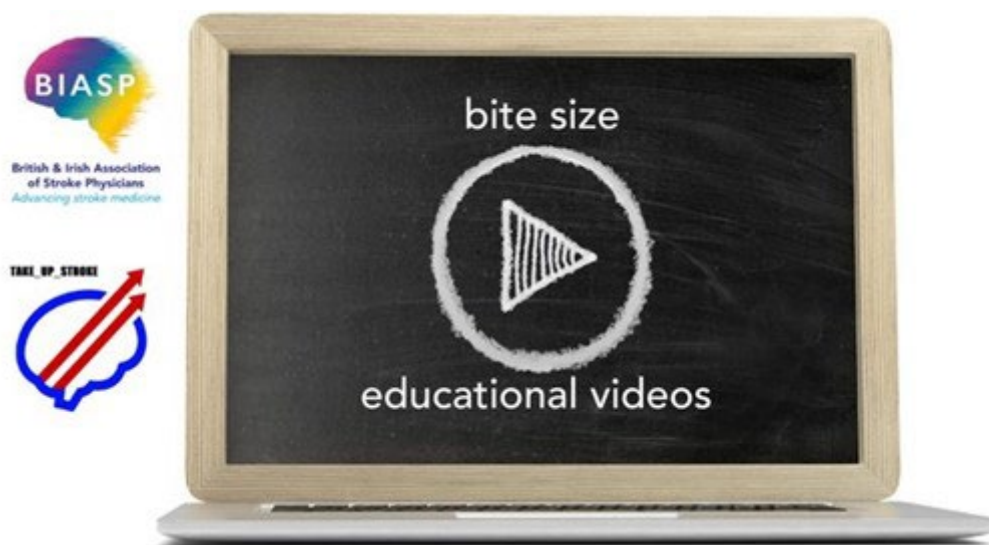

There will be a summer break so no webinars in July and August

Webinar 32: Thrombotic Thrombocytopenic Purpura (TTP), Michael Desborough, 25 September

Webinar 33: Neuropsych and Cognitive Issues Following Stroke, Terry Quinn, 23 October

Webinar 34: Functional neurological disorder - a common stroke mimic - a stroke physician's perspective and how to help such patients, Ranjan Sanyal, 13 November

Bitesize Educational Hub

Bitesize videos are now available to view on the BIASP website.

Topics include:

- **Why I love Stroke**
- **Joys of working as an MDT**
- **Why I chose stroke as a career**
- **A patient's journey**

[CLICK HERE](#) to view them.

Contact admin@biasp.org for further information if these inspire you to film a video of your own.

Education

Stroke MSc Programme at UCL

We are excited to be looking for applicants from all disciplines (nursing, medicine, therapies) for the **2024/2025 Stroke Medicine MSc programme at UCL**. We are in our 9th year & over this time we have welcomed students who have completed projects supervised by **ION leading experts** including names you may already know : Prof Werring, Dr Perry, Dr Chandratheva, Dr Simister, Prof Leff and Prof Ward. We have a very high pass rate with an overall high number of distinctions awarded every year (>50%).

There is also a fees only bursary of £5000 available which will be competitively allocated. We are taking applications until 30th August. The course can be taken full or part time (over two years).

It's an enjoyable year and an opportunity to learn away from the hustle and bustle of the clinical workplace - for more information please [CLICK HERE](#) to access this link
