July 2025

BIASP Exec Message

Dr Jason Appleton
BIASP External Engagement Lead

Dear colleagues,

I hope you're enjoying the summer so far. This month's BIASP bulletin contains lots of interesting material.

We have formally left X/Twitter and are now on BlueSky, so please follow us for regular stroke-related news and updates: <https://bsky.app/profile/biasp.org>.

Congratulations to our BIASP new appointments: Dr Sam Neilson and Dr Su Ling Yeoh who both join the Trainee subcommittee; and Dr Jattinder Khaira who joins the Executive committee as Lead for England. Thank you for applying and we wish you well in your new roles.

The early bird deadline for the UK Stroke Forum in Aberdeen is 31/07/2025 – so please remember to register for what looks to be a great programme at a great venue. Don't forget to include your BIASP membership details and discount code which is located in the Members' area of the BIASP website. We look forward to seeing you there! Before then is the NIHR UK Stroke Research Workshop in Newcastle in September, which looks to be a great and affordable meeting.

Following re-branding, the Stroke Training Excellent Programme (STEP) Fellowship 2025 is a great opportunity for non-consultant members to act as ambassadors for stroke across the 5 nations. Following the review of applications received we hope the first cohort will commence in September.

The BIASP writing group application is open with up to £1000 per writing group to bring together a team and work towards a successful research grant application. There are also several short surveys in the bulletin, which we would be grateful if you would consider completing please. Although we're having a summer break from BIASP webinars, be sure to register for September's neuroimaging talk from Dr Ramalingam.

The recent industrial action affecting many of us will have seen members stepping up to keep patients safe. I hope you all have some down-time over the summer to reflect and reset. Take care of yourselves and each other.

Best Wishes,

Jason

BIASP Trainee Subcommittee Update

The report this month from Dr Nelmes is on the following:

- Trainees' Meeting 2026
- Trainee subcommittee changes
- Opportunities for trainees

[CLICK HERE](#) to read the report in full

Dr Angela Nelmes
BIASP Trainee Subcommittee Chair

BIASP Sustainability Update

Dr Bethan Davies
BIASP Sustainability Lead

[CLICK HERE](#) to read the full report from Dr Davies for this month on the following:

What we're doing

In June, we supported Clean Air Day by signing the Health Sector Letter for Clean Air organised by Global Action Plan to highlighting the serious health impacts of air pollution at every stage of life including recognition of the association between air pollution and risk of stroke.

Read

At the time of writing, drought declarations have been issued across parts of the UK after the driest January to June since 1976 and we have seen the hottest June ever recorded in England.

Get involved

Please get in touch if you are interested in joining the BIASP sustainability committee – in particular we are looking for support with the BIASP sustainability webpage.

BIASP New Appointments

Following the recent nomination call BIASP are delighted to announce these appointments (unopposed) to be ratified at the AGM.

- Dr Jattinder Khaira - Executive Lead for England on the Executive committee
- Dr Sam Neilson - Trainee subcommittee, Sustainability subcommittee rep
- Dr Su Ling Yeoh – Trainee subcommittee, BGS liaison

[Look out for a further call for vacant posts on the Clinical Standards Subcommittee](#)

BIASP President's Award 2025

**Who do you believe should be
nominated for the BIASP annual
President's Award?**

UKSF 2025 Cinema Zone

Submissions for the Cinema Zone at UKSF 2025

In 2024 all 13 films and documentaries were screened at scheduled times and on a continuous loop throughout the conference, the plan is to have the same this year.

If you or a colleague/friend, have a video you'd like to submit, please send either a YouTube link or an MP4 file to ukstrokeforum@stroke.org.uk

by 5pm on Friday, 29 August.

UK & ROI Acute Stroke Simulation Course

The UK and ROI Acute Stroke Simulation course continues to go from strength to strength. In 2024 we trained over 100 healthcare professionals using simulation. The feedback from both candidates and faculty members continues to be extremely positive.

Candidates have stated: *"I think this kind of multidisciplinary course with varying levels of seniority attending is exactly what's needed to help develop stroke emergency/oncall skills."*

Faculty have stated: *"Comprehensive teaching for decision making in the acute setting. Lots of interactive learning and reflections Supportive environment for learning."*

There are a further 11 courses planned for 2025, including the first courses in Wales and Ireland. We are continuing to train new course centres across all five nations.

If you would like to be involved, please contact ukstrokesimulation@gmail.com

The course is multidisciplinary and open to anyone involved in acute stroke care. [CLICK HERE](#) for all course information and registrations

Upcoming 2025 Dates and Venues are available to register on the BIASP website, these are in the Course Dates and Locations section
[CLICK HERE](#)

Upcoming locations with dates to follow:
Northampton, Ipswich, Liverpool, Wirral

We have developed a package that would include all the relevant materials including access to the scenarios and stroke simulation intranet.

Additional Sites:

We have identified other areas across the UK and ROI to deliver the course in 2025. If you would be interested in hosting a course please get in touch by emailing ukstrokesimulation@gmail.com

Regional Leads:

We are seeking to identify individuals interested in coordinating the development and delivery of the course in their region. If you would be interested in becoming a regional lead please email ukstrokesimulation@gmail.com

BIASP Medical Student Essay Prize 2025

Is your member profile up to date?

You can now access the new and enhanced BIASP membership system. This allows us to know and understand our membership better to tailor the benefits we can deliver.

Please check and update your details, ticking all options which are relevant to you, particularly any other organisations you may also be a member of.

With regards to Equality, Diversity and Inclusion please do complete these fields within your profile.

This will only take a few minutes.

[CLICK HERE](#) to login to the members area.

Member Benefits & Discounts

Benefit for Associate members moving to Full membership

We value your support as a member of BIASP and would like to offer **20% discount** for the first year of Full membership.

Benefit for Current and New Members - LTFT 20% Discount

This benefit is for members who work less than full time, if you work 8 PAs or less, when membership is due for renewal or when a new member joins.

Current members should send in their job plan to admin@biasp.org at least one month before their renewal date.

The 20% discount will be applied upon review of the job plan.

Other Association discounts available for BIASP Members

[CLICK HERE](#) for more information

ASSOCIATION
OF BRITISH
NEUROLOGISTS

NEW Reciprocal 20% Membership

Discount from 1 Feb 2025

Use code **BIASP20**

[CLICK HERE](#) for information, fees and to
join

Types of membership applicable to BIASP members are:

- Affiliate members (if a consultant or GP)
- Junior member (if a junior hospital doctor)
- Allied Health Professional membership (if a nurse, physician associate or other allied health professional)
- Ordinary and Associate membership are for Neurologists only

BIASP Mentorship Programme

**We are now going live with the new BIASP mentorship scheme.
CPD approved, 3 points**

Many of you have volunteered to become mentors, or have requested to become a Mentee.

As part of this scheme we have developed online training materials which may be of interest also to those of you who have not yet volunteered to Mentor, and are free of charge for all members to complete. CPD points on completion of mentor training.

If you already have experience of being a mentor and/or have completed an equivalent course, and wish to become a BIASP mentor, then please email admin@biasp.org to register your interest

[CLICK HERE](#) for the flyer
[CLICK HERE](#) to access the training materials

Are you interested in being mentored?

We are also looking for mentees to participate in this programme. This opportunity is open to those enrolled in early specialty training, including IMT3, in a stroke parent specialty.

Register your interest by completing the form via the link [HERE](#)

Research Updates & Opportunities

If you have any research opportunities you would like us to promote please email admin@biasp.org

Updates

Research

NIHR's flagship '[Be Part of Research](#)' campaign

Share your study with thousands of research-ready volunteers

The NIHR Be Part of Research service has over 600,000 research-ready volunteers waiting to take part in research studies. Our free online service matches volunteers to health and care studies taking place across the UK.

The service supports a broad range of research - from lifestyle questionnaires to clinical trials - taking place at local hospitals, GP surgeries, in care or community settings or at home.

Be Part of Research can identify suitable volunteers for your study through a wide range of data including age, ethnic group, sex, location and condition. We can help you find potential participants quickly and effectively - accelerating study recruitment.

Take the hard work out of your recruitment and [add your study to the Be Part of Research service](#)

Research Project - Optimise

The research is a short UK-based survey (<15 minutes) as looking at pathways of psychological care (mood and cognition) for people following Transient Ischaemic Attack and Minor Stroke. Keen to gather insights from a wide range of clinicians involved in supporting individuals after TIA/minor stroke, including nurses, neurologists, stroke physicians, geriatricians, general practitioners (GPs), clinical psychologists, neuropsychologists, occupational therapists, physiotherapists, speech and language therapists.

[CLICK HERE](#) for the Optimise study website

Closes 31 October 2025

Optimising Pathways of Psychological Care after Transient Ischaemic Attack and Minor Stroke (OPTIMISE)

Take part in a short online survey to help us better understand the support available for changes in mood and cognition after a diagnosis of Transient Ischaemic Attack (TIA) or Minor Stroke

We are looking for:

Clinicians and professionals who work directly with people who have experienced a TIA or minor stroke within the past year

All participants need to be 18 years old or older and work in the UK

Questions? Contact us at 07468702178 Optimise_Study@nottshc.nhs.uk

Surveys

Timing of direct oral anticoagulation following acute ischaemic stroke with atrial fibrillation

Clinical uncertainty persists about the optimal timing of direct oral anticoagulation (DOAC) initiation after acute ischaemic stroke in patients with atrial fibrillation. Current guidelines do not provide clear or consistent recommendations. This situation presents a frequent dilemma on the stroke unit because of the competing concerns regarding the prevention of early recurrent ischaemic stroke (potentially favouring early DOAC initiation) while reducing the risk of haemorrhagic transformation (potentially favouring delayed DOAC initiation). Many of the initial large randomised controlled trials involving DOACs excluded patients in the first 14 days from stroke onset. Recent trial data, including from the OPTIMAS trial in the UK, have provided new data about the optimal timing of DOAC initiation.

This short survey (*approx. 5 minutes*) aims to understand the current practices and opinions of UK physicians regarding the timing of DOAC initiation after acute ischaemic stroke in patients with atrial fibrillation. We would be very grateful if you could complete

these questions about how you currently treat patients in routine clinical practice on the stroke unit. Thank you for your participation!

[CLICK HERE](#) for survey link

Closes 31 July

WSO Neurointerventional Training Capacity Survey

Why Neurointerventional Training Matters

Neurointerventional training is essential for improving stroke systems of care and outcomes for patients with complex, life-threatening conditions such as large vessel occlusion stroke. However, there remains a critical global shortage of trained neurointerventionalists. By capturing insights into training structures and standards across different regions, we hope to identify gaps and inform future efforts to expand access to lifesaving stroke interventions.

Your perspective matters.

If you are a practicing neurointerventionalist, prospective neurointerventionalist, physician, industry member or key stakeholder in the fight against stroke, we would greatly appreciate your participation in this brief survey, which will take less than five minutes to complete. Your input is vital to shaping global training pathways and increasing neurointerventional capacity, especially in underserved regions.

This is a quality improvement project; therefore, formal consent is not required. However, by clicking the link and completing the survey, you are indicating your willingness to participate.

[CLICK HERE](#) for survey link

Closes 18 August

ID-Stroke: Think Aloud Interviews

The ID-Stroke study is exploring how healthcare professionals make decisions regarding the investigation of stroke aetiology, including what investigations to order, sequencing of these investigations, when to stop looking for a possible cause, and the factors that influence these decisions.

More participants are needed, particularly **non-medical consultants and advanced clinical practitioners who are responsible for investigating stroke aetiology in follow up clinics.**

[CLICK HERE](#) for the flyer

The study will close in **October**

To find out more, or to take part in a case-discussion interview, please email Dr Clare Gordon at IDStroke@uclan.ac.uk

RCP Survey on the Future of Medical Training

During the past few years, the RCP has successfully campaigned for a [long-term approach to workforce planning](#), the [expansion of medical school and postgraduate training places](#) and a [review of postgraduate medical training](#). We are now pushing for [urgent action on competition ratios for specialty training](#) and we are putting [resident doctors at the heart of the conversation](#) about the 10-Year Health Plan.

The [RCP next generation campaign](#) is an important part of our response to the difficulties of the past 18 months.

With questions designed [by resident doctors for resident doctors](#), we want to know what people think about applying to medical training, supervision and feedback, the working environment, and the future of medicine as a career.

[CLICK HERE](#) for the Survey

No need to be an RCP member or even working in a physician (medical) specialty to complete the survey

RESEARCH PARTICIPANTS NEEDED UEA Ethics Approval: ETH2425-2001 V4

Are you an experienced **Stroke Clinician** or a professionally registered **Stroke Researcher** (HCPC, BPS etc.) who is currently/or has been:

- Reviewing risk or mood as part of your clinical role
- Engaged in clinical work with stroke survivors with aphasia

And/or

- Have a strong understanding/or have published research on the principles of identifying the risks associated with suicidality in stroke survivors with aphasia, i.e. depression, emotionality.

About the Study:
We are interested in gaining consensus regarding the most common, useful and accessible methods of assessing risk of suicide within stroke survivors with aphasia.

You will be asked to:

- Complete 3 rounds of questionnaires via email, this will take approximately 20-30mins to complete each round.
- You will be gifted a £10 (or currency equivalent) **Amazon voucher** upon completion of all rounds.

If you are interested in taking part, please contact Kellsey McCann at:

k.mccann@uea.ac.uk
(or scan QR code)

RESEARCHER: KELSEY MCCANN

New Research at the University of East Anglia - Suicide Assessment in Aphasia: a Delphi Study (SAADS)

Stroke survivors are at a significantly increased risk of attempting suicide. This risk is predicted to be higher within stroke survivors with aphasia, yet there is no clear guidance on how to detect/assess risk of suicide within this group.

This study is an opt-in Delphi Study.

If you are interested scan the QR code or contact Kellsey McCann at k.mccann@uea.ac.uk

Neurological Alliance

THE NEUROLOGICAL ALLIANCE

The Neurological Alliance, of which BIASP is a member, has recently done a survey of the needs of people with a range of neurological diagnoses. There were over 200 people with either TIA or stroke who responded. Pain, problems with movement, fatigue, mood problems, sleep, memory, sexual function and vision were all common. These responses are consistent with other studies that have reported the long-term needs of people after stroke, and demonstrates the importance of life after stroke as an area for service development and research.
