November 2025

BIASP Exec Message

Prof David Werring
BIASP President

This is my final BIASP bulletin contribution as BIASP President. The two years have flown by, and I feel privileged to have had the opportunity to lead such an enthusiastic and talented Executive Committee team, supported by our many individual committee members. It has been inspiring to see all their excellent achievements, motivated by a common goal of improving the care of people with stroke across the five nations.

As autumn suddenly transitioned into winter, some of us were lucky to have the opportunity to attend the UK Stroke Forum (UKSF) in Aberdeen. But of course, winter weather also brings winter pressures, meaning that many BIASP members were dedicated to delivering clinical care, sometimes in hard-pressed clinical services.

Nevertheless, for those attending, this year's UKSF was particularly exciting as the 20th anniversary of the meeting, which remains a flagship event in the BIASP calendar. As always, BIASP played a major role in putting together an excellent programme of training, educational and scientific sessions. Topics covered included not only hyperacute stroke care - including thrombolysis and thrombectomy - but also new frontiers in cardioembolic stroke, renal disease and stroke, and current controversies in acute management. There was also an opportunity to catch up on the latest ongoing and planned NIHR stroke clinical trials.

At our stall in the exhibition area, we highlighted key aspects of our current strategy and met many members who provided valuable feedback on our work. It was also great to see many BIASP members at our annual general meeting where we reviewed our progress and announced winners of recent elections and the BIASP President's award (to Tom Hughes)! Finally, BIASP led a session on equality, diversity and inclusion - with an emphasis on the workforce challenges we face in stroke - and it was a great pleasure seeing many of you attending and engaging in active and constructive discussions.

Finally, I am pleased to know that, as I step down from my role as BIASP President, our Association will be in the exceptionally capable hands of Dr Louise Shaw. Louise will bring her extensive clinical, educational and leadership experience to BIASP's mission, and I

know that she will rise to the many challenges! I look forward to cheering her on from the sidelines as BIASP Past President.

UKSF 2025

BIASP Presidents

BIASP Stand

BIASP AGM

BIASP Honorary Member

BIASP President's Award Winner 2025

Dr Tom Hughes

Consultant Neurologist and Stroke
Physician

University Hospital of Wales, Cardiff

Tom is an outstanding neurologist-stroke physician, clinical leader, teacher and trainer. He has made important national contributions to stroke training and is always a keen advocate and ambassador for stroke in Wales. He has been a wonderful servant to BIASP; always positive and full of good humour.

Tom was presented with his award at the
BIASP AGM.

Congratulations!

BIASP Award Winners

BIASP would like to congratulate the following recent award winners announced at UKSF:

Local Clinical Research Investigator Award :

Dr Dimitri Marantos and Dr Manju Krishnan

Warlow Prize - Dr Tom Moullaali

BIASP Trainee Subcommittee Update

Dr Angela Nelmes
Trainee Subcommittee Chair

The report from Dr Nelmes this month is on the following:

- BIASP Trainees' Meeting 2026
- Thinking about Developing your Skills Set

UK & ROI Acute Stroke Simulation Course

The UK and ROI Acute Stroke Simulation course continues to go from strength to strength. In 2024 we trained over 100 healthcare professionals using simulation. The feedback from both candidates and faculty members continues to be extremely positive.

Candidates have stated: *"I think this kind of multidisciplinary course with varying levels of seniority attending is exactly what's needed to help develop stroke emergency/oncall skills."*

Faculty have stated: *"Comprehensive teaching for decision making in the acute setting. Lots of interactive learning and reflections Supportive environment for learning."*

There are a further 11 courses planned for 2025, including the first courses in Wales and Ireland. We are continuing to train new course centres across all five nations.

If you would like to be involved, please contact ukstrokesimulation@gmail.com

The course is multidisciplinary and open to anyone involved in acute stroke care.

**The remainder of the 2025 courses are now full.
2026 course dates, information and registration links are on the website.**

[CLICK HERE](#)

We have developed a package that would include all the relevant materials including access to the scenarios and stroke simulation intranet.

Additional Sites:

We have identified other areas across the UK to deliver the course in 2026. If you would be interested in hosting a course please get in touch by emailing ukstrokesimulation@gmail.com

Regional Leads:

We are seeking to identify individuals interested in coordinating the development and delivery of the course in their region. If you would be interested in becoming a regional lead please email ukstrokesimulation@gmail.com

BIASP Medical Student Essay Prize 2026

Have you personally seen or been involved with a patient who has suffered a stroke that has an inspirational story or important message about stroke for all?

If so, please consider writing a short essay.
We need 250 words or less before **27 January 2026**.

The prize for the winner/s is:

- Free attendance at the BIASP Trainees' Meeting with the opportunity to present their case
- A bursary of £300 to help with travel and accommodation to attend the Trainees' Meeting

Is your member profile up to date?

You can now access the new and enhanced BIASP membership system. This allows us to know and understand our membership better to tailor the benefits we can deliver.

Please check and update your details, ticking all options which are relevant to you, particularly any other organisations you may also be a member of.

With regards to Equality, Diversity and Inclusion please do complete these fields within your profile.

This will only take a few minutes.

[CLICK HERE](#) to login to the members area.

Member Benefits & Discounts

Benefit for Associate members moving to Full membership

We value your support as a member of BIASP and would like to offer **20% discount** for the first year of Full membership.

Benefit for Current and New Members - LTFT 20% Discount

This benefit is for members who work less than full time, if you work 8 PAs or less, when membership is due for renewal or when a new member joins.

Current members should send in their job plan to admin@biasp.org at least one month before their renewal date.

The 20% discount will be applied upon review of the job plan.

Other Association discounts available for BIASP Members
[CLICK HERE](#) for more information

ASSOCIATION
OF BRITISH
NEUROLOGISTS

NEW Reciprocal 20% Membership
Discount from 1 Feb 2025

Use code **BIASP20**
[CLICK HERE](#) for information, fees and to
join

Types of membership applicable to BIASP members are:

- Affiliate members (if a consultant or GP)
- Junior member (if a junior hospital doctor)

- Allied Health Professional membership (if a nurse, physician associate or other allied health professional)
- Ordinary and Associate membership are for Neurologists only

BIASP Mentorship Programme

**We are now going live with the new BIASP mentorship scheme.
CPD approved, 3 points**

Many of you have volunteered to become mentors, or have requested to become a Mentee.

As part of this scheme we have developed online training materials which may be of interest also to those of you who have not yet volunteered to Mentor, and are free of charge for all members to complete. CPD points on completion of mentor training.

If you already have experience of being a mentor and/or have completed an equivalent course, and wish to become a BIASP mentor, then please email admin@biasp.org to register your interest

[CLICK HERE](#) for the flyer
[CLICK HERE](#) to access the training materials

Are you interested in being mentored?

We are also looking for mentees to participate in this programme. This opportunity is open to those enrolled in early specialty training, including IMT3, in a stroke parent specialty.

Register your interest by completing the form via the link [HERE](#)

Research Updates & Opportunities

If you have any research opportunities you would like us to promote please email admin@biasp.org

Updates

In this month's scientific update, we look at the use of transcranial magnetic stimulation (TMS) to aid post stroke rehabilitation.

[CLICK HERE](#) to read the update from Dr Joseph Pybus, ST4 - Trainee subcommittee

The LA.Cunar Intervention Trial 3,(LACI-3), a large Phase 3 trial, is testing two drugs, isosorbide mononitrate and cilostazol, which, in the Phase 2 LACI-2 trial, showed strong promise to prevent cognitive decline, dependency, recurrent stroke and improve quality of life after lacunar ischaemic stroke, a type of cerebral small vessel disease (cSVD).

Research

NIHR's flagship '[Be Part of Research](#)' campaign

Share your study with thousands of research-ready volunteers

The NIHR Be Part of Research service has over 600,000 research-ready volunteers waiting to take part in research studies. Our free online service matches volunteers to health and care studies taking place across the UK.

The service supports a broad range of research - from lifestyle questionnaires to clinical trials - taking place at local hospitals, GP surgeries, in care or community settings or at home.

Be Part of Research can identify suitable volunteers for your study through a wide range of data including age, ethnic group, sex, location and condition. We can help you find potential participants quickly and effectively - accelerating study recruitment.

Take the hard work out of your recruitment and [add your study to the Be Part of Research service](#)

Surveys

A service evaluation of staff experiences of nurse-led dysphagia screening after acute stroke in the UK

Because nurse-led dysphagia screening is a procedure that requires the involvement of different professionals, we are interested in collecting views and experiences from professionals involved in dysphagia screening in acute and hyper-acute stroke care teams, specifically nurses, doctors and speech & language therapists. We are happy to receive answers from multiple members of the same team, so doctors can also disseminate this project with other team members.

[CLICK HERE](#) for the survey

Closing date 14th December 2025

Role of Immunomodulation in thrombotic and microvascular primary antiphospholipid syndrome

Antiphospholipid syndrome (APS) is an autoimmune antibody-mediated prothrombotic disease causing stroke, and increasing evidence suggests that thrombo-inflammation plays a major role in the pathogenesis of thrombosis. However, anticoagulation, mainly with vitamin K antagonists (VKA), is currently the main treatment modality to prevent recurrent thrombosis. Despite treatment with VKA, patients with thrombotic APS may develop recurrent thrombosis.

[CLICK HERE](#) for more information

[CLICK HERE](#) for the survey

Closing date 31 December 2025

INTERACT - INvestigating inTERactions between AI and Clinicians in Tech-supported reporting of imaging

The Academic Centre for Surgery (ACeS) at South Tees Hospitals NHS Foundation Trust is supporting Dr Maya Jafari, Consultant MSK Radiologist, in disseminating a voluntary survey exploring the use of Artificial Intelligence (AI) in medical imaging.

The survey is open to **all imaging professionals** worldwide including, radiologists, radiographers, nuclear medicine physicians, sonographers, cardiologists, and any other professionals involved in imaging reporting.

[CLICK HERE](#) for the survey
Closing Date 31 January 2026

Blood pressure >185/110 mmHg in otherwise IVT eligible patients: survey for a trial

Guidelines recommend that high blood pressure should be lowered prior to administration of intravenous thrombolysis, e.g. to <185/110 mmHg. However, they do not tell us how to.

The recently published TRUTH non-randomised study from the Netherlands compared centres that followed guideline advice (using iv labetalol) with those that waited for blood pressure to fall spontaneously before administering IVT. Waiting for the BP to fall was associated with a non-significantly better functional outcome, i.e. lowering BP proactively might actually be bad.

A group are considering how to best design a trial to formally test this question but need guidance on what might be acceptable to recruiting sites.

If you are willing to complete the questionnaire, [CLICK HERE](#)
Closing Date 31 January 2026

Survey to help planning a head positioning and thrombectomy trial

We would be grateful if you would consider completing a questionnaire on head positioning pre-thrombectomy available via the link below. It shouldn't take more than 5 minutes to complete. There are no right or wrong answers; we are simply canvassing practice and individuals will not be identified.

A recent small trial compared lying flat vs. sitting up in patients prior to mechanical thrombectomy but was stopped early and was under-powered. We hope this questionnaire will be helpful for us to understand current clinical practice and whether a further trial is appropriate to pursue.

[CLICK HERE](#) for the survey
Closing Date 31 January 2026

Anosognosia After Stroke - Study Recruitment Support

 Calling all stroke clinicians and researchers!

I am now recruiting participants for my thesis research as part of my Doctorate in Clinical Psychology with The University of Exeter.

The study will explore how anosognosia after stroke is conceptualised and assessed in clinical practice and research.

If you have experience working with stroke patients or have published stroke-related research, I'd love to hear from you!

 Participate in 3 short online questionnaire rounds (20–30 mins each)

♥ £5 will be donated to The Stroke Association for each person who completes all 3 rounds

Your expertise will help shape future clinical assessment and intervention in the field long-term.

Scan the QR code on the poster, [CLICK HERE](#)

National Clinical Impact Awards 2026

National Clinical Impact Awards (NCIAs) will open on the 1st of April 2026. Early next year there will be information and resources for the 2026 award round which will be shared with members.

Clean Air Night 2026

Clean Air Night is on 22 January 2026

As the colder weather returns and the nights are drawing in, another wood burning season is beginning across the UK.

Recent research from **Global Action Plan, Hertfordshire County Council and Ricardo** revealed that each year, air pollution from burning in UK homes contributes to nearly

2,500 premature deaths. Across the population, this adds up to over 27,000 life years lost to early death.

Wood burning produces fine particulate air pollution (PM2.5), which enters your bloodstream when inhaled and can cause heart and lung disease, as well as increasing your risk of diabetes and dementia.

UKHACC

Health leaders call on PM to reject Rosebank to protect health

The UK Government is currently considering an application from oil giant Equinor to drill the Rosebank oil and gas field in the North Sea. In a joint letter, senior health leaders representing a range of healthcare professions have written to the Prime Minister and Secretary of State for Energy Security and Net Zero calling on them to reject the application due to the significant health risks posed by greenhouse gas emissions associated with the field.

Neurological Alliance

THE NEUROLOGICAL ALLIANCE

The Neurological Alliance, of which BIASP is a member, has recently done a survey of the needs of people with a range of neurological diagnoses. There were over 200 people with either TIA or stroke who responded. Pain, problems with movement, fatigue, mood problems, sleep, memory, sexual function and vision were all common. These responses are consistent with other studies that have reported the long-term needs of people after stroke, and demonstrates the importance of life after stroke as an area for service development and research.

[CLICK HERE](#) to read the findings of the **My Neuro Survey** for adults and carers (including people caring for children) in England in a policy report

BIASP are a member of the Neurological alliance, which has been very busy campaigning for patients with neurological problems including stroke.

[CLICK HERE](#) to access the website

The UK Neuro Forum is being established following the #BackThe1in6 campaign, which was supported by 19,000 people and 100 organisations, including BIASP. The forum is proof that when we work together, we can achieve real change.

[CLICK HERE](#) to learn more about this landmark initiative

Together with over 30 leading organisations, we're calling for urgent action to fix the neuro workforce crisis and make it fit for the future.

Ahead of the **10-Year Workforce Plan**, we have endorsed The Neurological Alliance's consensus statement.

The statement brings together professional bodies and national health charities with a united call to strengthen the clinical neuroscience workforce. It sets out solutions to today's challenges and actions needed to secure a workforce fit for the future. Crucially, expanding the workforce is essential to improve services, care and outcomes for people with neurological conditions.

Virtual Learning Hub

BIASP are hosting monthly 1-hour webinar sessions with the opportunity to ask the presenters questions at the end of each session. The live webinars will also be uploaded to the Virtual Learning Hub in the BIASP Members-only section for you to watch any time afterwards.

Each webinar is **free** to attend, you must register in advance for each live session. A certificate will be issued for those who attend more than 75% of the session, and complete a short evaluation that appears on the screen directly after the session.

Click [HERE](#) to view past webinars on the BIASP Virtual Learning Hub.

BIASP Webinar 43

Topic: The stroke physician in the stroke rehabilitation MDT

Date: 21 January 2026

Time: 17:30 - 18:30

Speaker: Dr Jess Beavan

[CLICK HERE](#) to Register

Dates for your diary, further details will follow:

Upcoming 2026 Webinars

Webinar 44: 25/02/2026, SAS Doctors-career pathways & opportunities,
Sohaa Jamil & Liz Dex

Webinar 45: 18/03/2026, CNS vasculitis as a cause for stroke, Claire Rice

Webinar 46: 21/04/2026, CYP2C testing in Stroke, Kailash Krishnan

Webinar 47: 20/05/2026, Paediatric Stroke, Saras Sabanathan

Education

Stroke MSc Programme at UCL

We are excited to be looking for applicants from all disciplines (nursing, medicine, therapies) for the **2026 Stroke Medicine MSc programme at UCL**.

There is a fees only bursary of £5000 available which will be competitively allocated.
The course can be taken full or part time (over two years).

Applications are now open for 2026.

[CLICK HERE](#) to access this link

Neurotorium, Neurobehavioral Consequences of Stroke (NBCS) is now online

Five educational slide decks have been published (the 6th deck, stroke syndromes, is being developed at the moment), illustrations, an article on post-stroke language impairments, and the educational expert videos are available, [CLICK HERE](#)

These educational materials are free

Events

Upcoming events will be listed here in future, if you have an event you wish to promote please contact admin@biasp.org

Basics in Stroke and Neurology Course 2026

Practical and interactive one-day course will help to build knowledge and confidence in stroke and neurorehabilitation. Attendees will explore the theory, evidence, and lived experience of stroke care while developing hands-on strategies to enhance their clinical practice.

Date: 2 February 2026

Location: Guy's and St Thomas' Education Centre, London
