BIASP Exec Message

It is a great honour to serve as the newly elected Honorary Treasurer of the British and Irish Association of Stroke Physicians (BIASP), and I am grateful to the membership for the confidence placed in me. Having worked as a Stroke Consultant at The Queen Elizabeth Hospital King's Lynn NHS Foundation Trust since 2008, I have witnessed both the remarkable advances in stroke medicine and the unique challenges of delivering high-quality, equitable care, particularly within rural and coastal communities. These experiences have reinforced my belief in the importance of strong clinical networks, collaboration, telemedicine and workforce development to ensure every patient has access to excellent stroke care, regardless of where they live.

As Honorary Treasurer, I am committed to ensuring BIASP's resources are managed responsibly and sustainably so that the Association can continue to invest in education, research, training, advocacy and opportunities for collaboration. At a time of rapid advances in stroke medicine—including thrombectomy, artificial intelligence, precision imaging and digital technologies—alongside increasing workforce and service pressures, BIASP has a vital role in supporting clinicians and strengthening stroke services across the UK and Ireland.

The continued success of our Association depends on the enthusiasm and expertise of its members. I encourage colleagues at every stage of their careers to engage actively with BIASP's educational, scientific and research activities as we work together to shape the future of stroke care, foster innovation and improve outcomes for patients.

Best Wishes,

Dr Raj Shekhar
BIASP Honorary Treasurer

WSO Board of Directors Update

Congratulations!

BIASP are delighted to announce to our members **Prof David Werring**, BIASP Past-president, has been elected to join the **WSO Board of Directors 2026-2030** representing *British and Irish Association of Stroke Physicians (BIASP)*.

David will make his first appearance at the WSO Board of Directors meeting in Seoul at the World Stroke Congress, 21-23 October.

Training & Education Update

This month Dr Das has given an update on the following:

- STEP Fellowship Programme
- Summer Bursaries
- UKSF T&E Sessions
- Webinars

Closing Date is midnight Monday 31 August 2026

BIASP Sustainability Subcommittee New Members

BIASP are delighted to announce the
following successful appointments
(unopposed) to the
Sustainability Subcommittee:

Dr Munib Mirza
Mr Sean Mabey
Mr Ellis Hodgkinson

The **BIASP Sustainability Subcommittee** continue to encourage new members to help drive our work on **environmental sustainability in stroke care and in BIASP's own activities**.

We welcome applications from **full, associate, affiliate, and medical student members** of BIASP.

You do not need to be a senior clinician or a sustainability expert – enthusiasm and willingness to contribute are most important, and the work is well suited to **students, trainees, and allied health professionals**.

Current priorities include:

- Supporting **sustainable BIASP meetings and events** (e.g. travel guidance, plant-based catering, UKSF and the Trainees' Meeting)
- Updating and implementing BIASP's **sustainability policy** and carbon-footprint work
- Developing **educational and promotional materials** (web content, blogs, short videos/slides) on sustainability and stroke

To apply, please email admin@biasp.org with a brief statement (150 - 200 words) on why you are interested and what you would like to work on.

[CLICK HERE](#) for the application form

If you are not yet a BIASP member, you can **join first**; membership is usually approved within a couple of weeks.

[CLICK HERE](#) to join BIASP

BIASP Membership Promotion

We are keen to expand BIASP membership and raise our profile among stroke teams across the across the UK and Ireland. Your support in helping us reach potential new members would be greatly appreciated.

We would be grateful if you could share this with colleagues working in stroke services - ideally by printing out locally and displaying on your unit.

[CLICK HERE](#) for the flyer which can printed locally in either A4 or A3 format

BIASP President's Award 2026

Who do you believe should be nominated for the BIASP annual President's Award?

BIASP Local Clinical Research Investigator Award 2026

OPEN for Applications

The Local Clinical Research Investigator Award by the British and Irish Association of Stroke Physicians (BIASP) acknowledges and rewards the exceptional contributions made by stroke physicians in stroke research. This award aims to recognise the value of grassroots research efforts and encourage the continued involvement of local practitioners in advancing the knowledge and treatment of stroke.

The prize includes a certificate of recognition and free registration for UKSF to support the recipient's continued research efforts.

UK & ROI Acute Stroke Simulation Course Jersey - July 2026 update

BIASP, led by Dr Shaw and Dr Mehdi, successfully delivered the first-ever UK and ROI stroke simulation course in Jersey, Channel Islands on the 13th July 2026.

Dr Ella Sherman in 2023 developed this to provide standardised multidisciplinary stroke simulation training

This was the first of two sessions in Jersey planned for 2026, facilitated by Dr Kelavkar, our past Trainee Subcommittee Chair, and Sophie Reading, Stroke Nurse Specialist — both of whom are currently working to establish a protocol-driven stroke service on the island.

The course was targeted specifically at the Emergency Department and attended by Consultants, Registrars, Clinical Fellows, ED Nurses, and Specialist Paramedics, receiving overwhelmingly positive feedback.

"Seldom does a course come along that truly offers us the opportunity to consolidate what we already know, extend our knowledge and clinical skills and then allow us to practice it in a learning environment. The Cherry on the cake were the chats where we were all able to ask those little questions that can only be answered by experience. You were all so practical and learned. It was a pleasure and has really changed my confidence and Va Va Voom for stroke treatment."

UK & ROI Acute Stroke Simulation Course

UK and ROI Acute Stroke Simulation Course – 2025 Update

2025 has been another highly successful year for the UK and ROI Acute Stroke Simulation Course. Over the past year, we delivered 12 courses across England, Wales and Ireland, training 125 healthcare professionals. A particular highlight was the delivery of our first Irish stroke simulation course, held in Waterford in May. We are now working closely with colleagues in both Wales and Ireland to develop a strategy that will support the expansion of further courses in both countries.

Feedback from participants continues to be extremely positive. One recent attendee commented:

"I thought this was wonderful. It has been massively helpful to me and improved my perspective and confidence. This kind of multidisciplinary course, with participants at varying levels of seniority, is exactly what's needed to develop emergency and on-call stroke skills. I was very nervous beforehand as I wasn't sure what to expect, but that wasn't necessary at all. The faculty were incredibly welcoming and skilled at facilitating feedback and discussion — you would think they had been delivering this course for years. Thank you to them all."

Dates for our 2026 courses have now been released, with several already fully booked. We are also hopeful that 2026 will see the delivery of our first Scottish Acute Stroke Simulation Course.

2026 course dates, information and registration links are on the website.

[CLICK HERE](#)

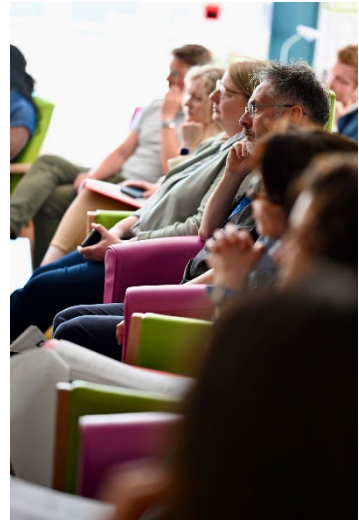

The course is multidisciplinary and open to anyone involved in acute stroke care.

We are also keen to support centres interested in delivering the course locally. If you would like to observe a course or become involved, please contact us at

ukstrokesimulation@gmail.com.

Finally, we are currently seeking regional representatives for the following areas and would welcome expressions of interest:

- East of England
- London
- North West of England
- Northern Ireland
- Scotland

Is your member profile up to date?

You can now access the new and enhanced BIASP membership system. This allows us to know and understand our membership better to tailor the benefits we can deliver.

Please check and update your details, ticking all options which are relevant to you, particularly any other organisations you may also be a member of.

With regards to Equality, Diversity and Inclusion please do complete these fields within your profile.

This will only take a few minutes.

[CLICK HERE](#) to login to the members area.

Member Benefits & Discounts

Benefit for Associate members moving to Full membership

We value your support as a member of BIASP and would like to offer **20% discount** for the first year of Full membership.

Benefit for Current and New Members - LTFT 20% Discount

This benefit is for members who work less than full time, if you work 8 PAs or less, when membership is due for renewal or when a new member joins.

Current members should send in their job plan to admin@biasp.org at least one month before their renewal date.

The 20% discount will be applied upon review of the job plan.

Other Association discounts available for BIASP Members

Anosognosia After Stroke - Study Recruitment Support

 Calling all stroke clinicians and researchers!

I am now recruiting participants for my thesis research as part of my Doctorate in Clinical Psychology with The University of Exeter.

The study will explore how anosognosia after stroke is conceptualised and assessed in clinical practice and research.

If you have experience working with stroke patients or have published stroke-related research, I'd love to hear from you!

- 📄 Participate in 3 short online questionnaire rounds (20–30 mins each)
- 💖 £5 will be donated to The Stroke Association for each person who completes all 3 rounds

Your expertise will help shape future clinical assessment and intervention in the field long-term.

Cardiovascular Disease Modern Service Framework (CVD MSF)

The **Cardiovascular Disease Modern Service Framework (CVD MSF)** has been published on GOV.UK and can be found [HERE](#)

The framework marks an important step in supporting the Government's ambition to reduce premature mortality from heart disease and stroke by a quarter within a decade. It sets out a clear direction for how the health and care system should accelerate progress on this ambition. This includes

1. identifying 12 priority actions that should be prioritised now to drive measurable improvements in outcomes and tackle inequalities, and
2. outlining a longer-term vision alongside challenge areas where further progress is needed.

As the first in a series of modern service frameworks, this represents a significant milestone. The MSF is intended to be dynamic and evolving, and we will continue to value your oversight, insight and challenge as implementation progresses.

This will be fundamental in driving the changes needed on the ground and realising our shared ambition to reduce premature mortality from heart disease and stroke by 25% over the next 10 years.

World Health Assembly

Stroke resolution adopted at WHA79

At the Seventy-ninth World Health Assembly, Member States approved the first-ever World Health Assembly resolution dedicated to stroke titled “[Reducing the burden of stroke: strengthening prevention, acute care, rehabilitation and health-system readiness.](#)”

The resolution was proposed by Egypt and jointly co-sponsored by Chile, Georgia, Palestine, Paraguay and Tunisia, the resolution represents a significant milestone in the global response to stroke and reflects broad commitment across WHO regions.

Neurological Alliance

THE
**NEUROLOGICAL
ALLIANCE**

The Neurological Alliance, of which BIASP is a member, has recently done a survey of the needs of people with a range of neurological diagnoses. There were over 200 people with

either TIA or stroke who responded. Pain, problems with movement, fatigue, mood problems, sleep, memory, sexual function and vision were all common. These responses are consistent with other studies that have reported the long-term needs of people after stroke, and demonstrates the importance of life after stroke as an area for service development and research.

[CLICK HERE](#) to read the findings of the **My Neuro Survey** for adults and carers (including people caring for children) in England in a policy report

BIASP are a member of the Neurological alliance, which has been very busy campaigning for patients with neurological problems including stroke.

[CLICK HERE](#) to access the website

The UK Neuro Forum is being established following the #BackThe1in6 campaign, which was supported by 19,000 people and 100 organisations, including BIASP. The forum is proof that when we work together, we can achieve real change.

[CLICK HERE](#) to learn more about this landmark initiative

Together with over 30 leading organisations, we're calling for urgent action to fix the neuro workforce crisis and make it fit for the future.

Ahead of the **10-Year Workforce Plan**, we have endorsed The Neurological Alliance's consensus statement.

The statement brings together professional bodies and national health charities with a united call to strengthen the clinical neuroscience workforce. It sets out solutions to today's challenges and actions needed to secure a workforce fit for the future. Crucially, expanding the workforce is essential to improve services, care and outcomes for people with neurological conditions.

Learn more here: www.neural.org.uk/workforce

A Vision for Neuro Neighbourhood Health

This report sets out why neurological conditions must explicitly be included in the government's neighbourhood health programme and an achievable model of coordinated specialist care closer to home for people affected by neurological conditions. Now we're calling for action from government to make that happen.
